SURGUT 20150: A GUIDE

Our lovely town

Welcome to Surgut, a blooming city of bright future! We are the biggest town in KHMAO-Ugra, the heart of Siber! ^{sp} Diverse cuisine, contemporary software developed right here and used for the sake of our vehicle industry, mesmerizing infrastructure - it's all us! Moreover, it's not an exhaustive list of our achievements.

A mere province? Think again!

People tend to see Surgut as a provincial hole. In reality, our population just hit the 2 million milestone; our pride, the Nano Tech corporation works with giants such as Siemens, Bosch, Philips and others; we are integrated in all international institutes. People of Surgut adore foreigners!

Oil dependency and how we overcame it

Back in early 2000s - 30s, we catered oil. It was the main source of income for our region. However, Earth's resources tend to ~~off~~ exhaust. Our young people helped in developing ways of getting energy in modern times, and now we own knowledge regarding quantum physics.

Plans for the future

Surgut is overflowing with bright minds, so we always expect the best! We do have several goals, though: first of all, we must make hoverboards and Flicars® safer for the younger generation to prevent accidents. Second, we should build more parks. In the further future, we plan to stop using solar panels fully. #VisitSurgut2150
